### Personal Agreements:

I understand that I may be asked to do certain "homework exercises" such as reading, changing behaviors, and otherwise acting in my own best interest. I understand that I am entirely responsible for my own actions and I will always make my own final decisions regarding this.

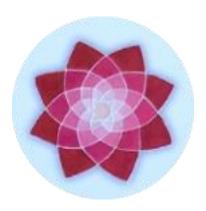

| I do not diagnose illness or prescribe medication. If you have a specific medical problem or complaint, you are |
|---|
| advised to seek professional medical help. You should also discuss any problems or complaints with your         |
| doctor if you are unsure whether to continue treatment.   |

I have read and understood the above and am receiving treatment at my own request.
